

MMS Minerals Revenue Management

Federal offshore producing and non-producing oil, gas, and other mineral leases under the supervision of the Department of the Interior, as of December 31, 1954-2001

NOTE: Rising oil and gas prices stimulated an interest in Federal offshore leasing in the latterhalf of the 1980's. Federal offshore leases declined in the early 1990's as a result of oil and gas price fluctuations and a shift in exploration activity to prospects outside the United States. Interest in Federal offshore leasing resumed in the latter half of the 1990's with greater price stability, new exploration technology, and subsalt discoveries in the Gulf of Mexico.

Twenty-two page table follows

[General Federal and American Indian mineral lease terms](#)
